## Rev Up Your Internet with IQuest Accelerated Dialup!

- **Don't Qualify for High-speed Broadband ?**
- **High-speed broadband a little too much for your budget ?**

IQuest has had great success the last 6 months with [IQuest Accelerated Dialup](#) - revolutionize the way you use the Internet and surf up to 5 times faster. Find out what other IQuest Accelerated customers already know. Accelerated Dialup is faster, up to 5 times faster!!!

IQuest Accelerated Dialup speeds up your Internet experience using your existing dial-up phone line and modem - you do not need to add any extra equipment. It is easy to install, runs seamlessly and doesn't alter any of your existing software. You can also control the amount of compression vs. speed gain yourself.

IQuest's Accelerated Dialup allows you to surf at near DSL speeds, giving you a high-speed Internet solution with the convenience and low-cost of dialup.

### What Gets Accelerated?

IQuest's Accelerated Dialup compresses the following elements of web pages in order to send the information to your computer faster:

- \* Web pages - HTML markup and JavaScript
- \* Graphics including JPEG and GIF images
- \* Text
- \* E-mail - SMTP and POP

Additional value-added features included are:

- \* Nationwide Internet Access to over 3000 local numbers
- \* Pop-Up Blocker - block annoying pop-up advertisements while surfing!
- \* Block in-page advertisements and floating flash Ads
- \* Integrated Diagnostic Support Tool

If you would like a free trial of IQuest's Accelerated Dialup please contact our customer support at (800) 844-8649 or visit your personal account at <https://my.iquest.net> and begin experiencing the speed of IQuest's Accelerated dialup immediately!

## March Madness is Here

The bracket's for the 2005 NCAA Division I Men's and Women's Basketball Championships were announced on March 13. Indianapolis will be hosting the first 2 rounds of the [Men's Tournament](#) on March 17th and 19th and the Finals for the [Women's Tournament](#) on April 3rd and 5th.

There is plenty to do in downtown Indianapolis between games; [Dining](#), [Shopping](#) and other [Local Attractions](#).

Don't forget to make reservations if you plan to be downtown either weekend, and give yourself plenty of time to find a parking space.

---

## Introducing IQuest Hot Spots

Make no mistake. Wireless Internet Hot Spots are here to stay. The Indianapolis area is full of wi-fi locations but why pay for them? Why not skip the paid access locations and support local businesses and your community for free.

Stop into your local free hotspot and play a game or buy a mocha, and let them know how much you appreciate the free wi-fi !

IQuest continues to work with local businesses to provide free wireless hotspots - look for us in your neighborhood at these locations:

- In Broadripple area at [Netheads](#)
- At the [Badass Coffee](#) house on 86th Street

More locations will be popping up soon!

What can you do at an IQuest Wi-Fi location ? - check your email, browse the

Internet, everything you can do with wired Internet access. All wireless users get 128Kbps. Need more speed ? Already have an IQuest dialup or DSL service ? Simply use your current login and you have a highspeed highway to the Internet !

Don't have an IQuest dialup or DSL service - simply sign up and use your dialup or DSL service at home - and when your out and about - your login gets you fullspeed ahead at all IQuest hotspot locations.

---

## **IQuest Business Services**

IQuest Business Services is please to offer your business Data Backup Services starting for as little as \$29.95

Despite technological advances in the reliability storage media, data loss continues to rise, making data recovery more important than ever.

### **Backup Your Vital Data**

A Recent Survey Indicates:

Hardware or System Malfunctions (44 percent of all data loss)

Human Error (32 percent of all data loss)

Software Corruption (14 percent of all data loss)

Computer Viruses (7 percent of all data loss)

Natural Disasters (3 percent of all data loss)

Don't become a statistic, let IQuest Business Services help. Please contact [sales@iquest.net](mailto:sales@iquest.net) to discuss how IQuest Back Up Solutions can help your company in a time of need.

available! [http://www.iquest.net/services/residential\\_DSL](http://www.iquest.net/services/residential_DSL)

Enjoy the speed of broadband DSL in as little as 6 business days for \$34.95, with No Strings, No Contracts, No Additional Purchases. No Fine Print. Just \$34.95.

Call IQuest today to see if you qualify at 1-**800-844-8649** and press **Option 2** for New Service, followed by **Option 2** for DSL Service.

---

### **Please Note IQuest Name Server IP Changes**

In our continuing effort to streamline operations and improve services, we have allocated new IP addresses for our nameservers. They are as follows:

<b>Old</b>	<b>New</b>
NS1: 198.70.36.70	206.246.180.200
NS2: 198.70.36.95	209.43.20.115

For most customers, this change will be "behind-the-scenes" and you won't have to make any configuration changes. However, if you have hard coded the old nameserver entries, you will need to reconfigure your settings to use the new addresses. The old server IP's will still answer queries, but will eventually be phased out.

If you need assistance in reconfiguring your settings, please contact our Customer Service Department by calling (800) 844-8649 x2.

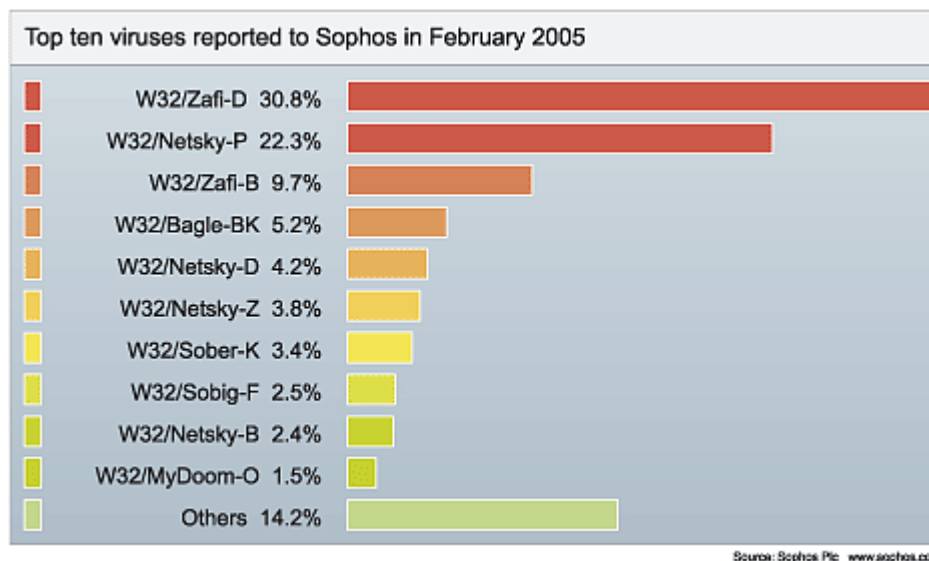

### **Crestview Elementary Sends Reporters to Cover the Iditarod**

IQuest Hosting is pleased to support Crestview Elementary, who sent five 4th and 5th Grade reporters to the Iditarod in Alaska on March 2. They have been providing daily updates about what's happening with the Iditarod.

Take a moment to visit their [website](#), which is being managed and was designed by

the 4th and 5th graders at Crestview Elementary.

Visit [www.iquesthosting.net](http://www.iquesthosting.net) for all your business hosting and managed services needs or give us a call at 1-877-254-8761

### February's Most Wanted List

"The Zafi-D worm has been keeping itself on the chart for a while now and it's evident that many home users are still not keeping their anti-virus up-to-date," said Gregg Mastoras, senior security analyst at Lynnfield, MA-based Sophos, Inc. "Sober-K, which has a number of disguises, including a phony email from the FBI, appeared at the end of this month but has managed to make the top ten. We'll surely keep our eyes on this particular worm in March."

"The latest form of the Bagle family of worms was Bagle-BK, claiming fourth place in the February top ten chart," continued Mastoras. "This worm fooled many users into opening its unsolicited email attachment. As always, practicing safe computing and keeping virus protection up-to-date goes hand in hand when it comes to avoiding infection."

Sophos research shows that over 3.54%, or one in 28 emails, circulating during the month of February were viral. This figure is slightly lower than last month when 1 in 23 emails were tagged as being viral.

**Please remember, IQuest Internet never sends attachments to our customers,** given the prolific nature of today's worms and viruses. IQuest

reminds all users to update their anti-virus protection and to ensure that you've installed the latest Microsoft patches.

<http://v4.windowsupdate.microsoft.com/en/default.asp>

In order to protect our customers, **IQuest provides FREE Email virus scanning** for all our iquest.net and lightbound.com users. Simply logon at <http://my.iquest.net> to enable this feature on your account. In addition, IQuest always rejects Email with executable (.exe) and zip (.zip) attachments. Emails with these attachments are viruses 99.9% of the time.

For more information check out our Partner Website at <http://www.sophos.com/>
